The best part about ALCI Chico is the friendly community they create for international students. Beyond learning about language and culture I was able to understand the academic expectations and integrate into the American university system as I prepared for my graduate studies at Chico State. Chico is a great place to pursue your academic dreams and become successful!

Victor O.

The best part about the ALCI Chico program is the faculty. They helped me improve my academic writing and prepared me to take a University course in international relations. In addition to improving my study skills, I enjoyed making a lot of new friends and playing volleyball. It is fun when everyone gets together for an activity on campus.
