

# Welcome!

OLLI at CSU, Chico offers classes and activities exploring a wide array of interests in history, literature, the natural and social sciences, fine arts, and current events. Whether it involves the discovery of your genealogical heritage or finding your singing voice, there is something for everyone.

This semester our volunteer instructors are offering classes to sharpen your brain in subjects like astrophysics and recreational math. Learn about multiple intelligences, megageology, and science ABC's by a non-scientist.

Improve your overall health and wellbeing by de-cluttering your house, focusing on gratitude, or making plans to get the most out of this last chapter of your life. Need to move your body? Classes in dance are fun, as is walking, hiking, Tai Chi, birding, and visiting local parks.

Treat yourself to new experiences and delight in human creation, with more than a dozen classes in music and the arts, like singing, guitar, ukulele, armchair travel sketching, painting, and museum tours. All of these are made possible by our volunteer instructors, called peer leaders, who share their talents and passions with our membership. Now is the time to learn, make new friends, and be an active part of OLLI's extraordinary community. Enjoy!

**American Aviation in WWI: Foundations of Air Power (✓)**

**Peer Leader(s):** Gary Hendrickson

**Monday(s)**, Jan 29–Mar 12 • 10:30 AM–12 PM

**Location:** Craig Hall: Bradley 2

As we experience the 100 year anniversary of WWI, I feel it appropriate to review the significant events that became the basis for the use of aviation as a strategic and tactical force. I intend to describe and illustrate the rapid technological advances in aircraft, engines and armament 1914-1918. I will also describe and illustrate the remarkable, colorful and often eccentric personalities of these first aerial warriors. Most importantly, there will be an underlying theme of the tragedy of war. WWI must be remembered as one of mankind's greatest follies...yet its lessons remain unlearned.

**Peer Leader(s):** Jack Ayer  
**Tuesday(s),** Jan 30–May 08 • 10:30 AM–12 PM  
**Location:** Craig Hall: Gordon 2

Thucydides chronicled the great war that rendered major damage on Athens in its golden age. He was a general in that war. He was forcibly retired. He deployed his leisure and his experience to create the first great narrative of a single conflict—how and why it came about, who fought and with what motives and what mistakes. As such he has served as a point of departure for every later discussion of the politics and governance of warfare. Thucydides is often paired with his great contemporary, Herodotus. But Herodotus is more wide ranging; Thucydides, more focused and austere. *Special Note(s):* You'll want your own copy. Any standard modern translation will do. Look for 'Peloponnesian War' by Thucydides. The Penguin edition is good and usually available cheap second hand. The newer Landmark Edition is fun but perhaps more than you need. There are Kindle editions, some as low as 99 cents. Those with courage will tackle the classic translation by the philosopher Thomas Hobbes in a new edition by U of Chicago (but it is not necessary).

**Peer Leader(s):** Susan Levine

**Tuesday(s)**, Jan 30–May 08 • 1:30 PM–3 PM

**Location:** Aymer J. Hamilton #124

This course is based on the book by Betty Edwards, "Drawing On The Right Side Of The Brain." The 1979 book incorporates the new knowledge of how the brain works to help people learn to draw what they see. Using exercises to tap into the spatial side of the brain, students will learn to shut down the verbal side of their brain that tells them they can't draw. This allows the student to "see the way an artist does" and draw what they see. Though Susan is not an artist, she has successfully taught 11-year olds to discover their untapped drawing abilities.

Consider end of life ethics and California Aid-in-Dying, then write an "Advance Directive." Before you go,

consider: Can dying be an art? A last career? Life review? Composing our last chapter? Part of achieving a good death is producing a ritual for our last passage. Get started. *Special Note(s): Donald Heinz's "The Last Passage" is an optional text available used from Amazon.com or in class. Class topics are: 1) Considering the 2nd half of life; 2) Reviving death in America; 3) Imagining dying/death/afterlife as spiritual journeys; 4) Could dying be a lost art?; 5) Make dying a last career; 6) Prepare and rehearse a ritual for your passage; and 7) Green burials and family-directed death care, presented by Rebecca Senoglu.*

**Wednesday(s),** Jan 31–May 09 • 10:30 AM–12 PM

The course asks what the legacy of slavery is and has meant in American culture. There are, of course, long-term effects in areas like politics, economics, and law. This course selects examples from literature and popular culture to see how slavery persists in America's memory and imagination.

In it he poetically explains the universe and humans' part in it. In this workshop, students will be presented with the various themes and concepts of Tzu's philosophy and how this can lead to living a more satisfying life. The Tao is supposedly the second most translated book in the world next to the Bible. Each version is different because of Tzu's poetic style and various meanings of his ancient Chinese characters. *Special Note(s): Since the Tao is more of a meditative book it only requires some background information for the 1st session and an instructional meditative 2nd session. Each one and a half hours in length.*
