Select Your Early Start Campus

1) Log into your Chico State Portal account at http://portal.csuchico.edu

2) Click the Student Center link in the Common Student Systems box or look under the Early Start Tab.

3) On your Dashboard menu click Admissions and then Early Start Program (see image at right).

4) The Early Start Program Page will appear. You do not need to fill in any fields. Click on the Search button.

5) The next page shows which Early Start class(es) you are required to take—Math and/or English.

If you’re required to take both Math and English, you may opt out of English by checking the box.

Chico State is pre-selected as your Early Start campus. The classes are online, so you do not need to be in Chico to complete them. However, you may change your campus selection using the drop-down menus.

6) If you opt out or change your campus, click Confirm Early Start Selections and proceed through the next two confirmation screens.

If no changes were made, click Enroll in Early Start Program.
