

Dear Online MBA & MCS Students:

Please review the following information regarding summer coursework and the financial aid process.

### Summer Financial Aid Process

- Students **do not** need to apply for summer financial aid.
- Students who are enrolled in at least 4 units of summer coursework will automatically be offered the maximum amount of loan that they have remaining eligibility for.
- Students can accept or decline the loan from within their Student Center. Students who do not wish to accept the total amount of loan that has been offered to them, can accept and then reduce the loan offer to the amount that they wish to receive.
- Summer is considered to be a part of the 23/24 academic year. If a student has reached, or is close, to the \$20,500 academic year limit for Unsubsidized Stafford loan and needs additional aid for the summer term, they can apply for a summer Graduate PLUS loan. Information and the application for the Graduate PLUS loan can be found here: <https://www.csuchico.edu/fa/types-of-aid/loans/plus.shtml>
- Prerequisite coursework is not fundable. Prerequisite units do count towards the required 4 units needed to be eligible for a summer loan.

If you have additional questions, please call the Financial Aid Office at 530 898-6451 to schedule an appointment with Chris Trowbridge
