## HIGH VALUE, HIGH IMPACT EDUCATION

Graduates of the program have advanced research skills and are prepared to design educational and training programs and lead diverse, interdisciplinary teams in efforts that positively influence the future of agriculture.

There are a range of professional opportunities available to Agricultural Education graduates, including many beyond traditional classroom teaching. Graduates of the program have gone on to fulfilling roles such as:

- Classroom teacher
- Extension educator
- Communications professional
- Public relations specialist
- Curriculum developer
- Environmental educator
- Trade association coordinator
- Congressional staffer
- Educational specialist
- International agricultural development specialist
- Program manager
- Producer
- Sales associate
- Outreach coordinator
- Professional development specialist

Structured to fit seamlessly and conveniently into the schedule of working professionals, the Chico State / AG IDEA flexible, online master's degree enables you to balance career advancement with professional, social, and financial commitments. You choose, apply to, and will be awarded your degree from your home university.

In the AG IDEA online degree program, your courses are taught by faculty experts in agricultural education from eight reputable institutions nationwide. This benefit of the program increases your access to the leading theories in agricultural pedagogy, providing a unique and unparalleled online academic experience.
